

Recruitment Agency

Our Associates Are Dedicated To Your Needs

Corporation Associates starts the hiring process by gathering your full requirements for each position. You may need to fill several positions; however, some may require college graduates while others may require experience with very specific skills.

Our dedicated team specializes in talent based on job function. You will be assigned a Primary Associate that will gather your hiring needs when you are looking to hire. From there, each job function will be assigned to a specific recruiter that knows the market including the skills needed for success.

Corporation Associates has created a talent database that allows us access

to job seekers with the skills that you require. Our firm works with top universities to identify college graduates with interest in the field that you are in.

The modern office is no longer the traditional office. The entry level workers are looking for employers that offer flexibility. Our database captures the terms of employment that your company offers, with that, we not only match skills. We match the work-life balance that candidates are looking for. Let our system find the talent that you need. You will find that the candidates that you are matched for interview are a better match.

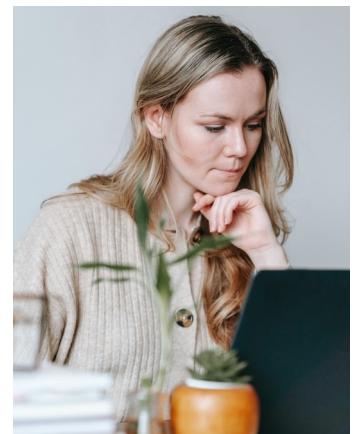

Job areas of focus

Corporation Associates recruits candidates for many job functions. We have the talent pool split into three categories. FTE, management and C-level.

To get started, call your Primary Associate and begin a conversation about

your needs. Our recruiters will work to find the talent that you require.

- College grad
- Experience level
- On-site or remote
- Specialized skills or general job function
